WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON RONAN TELEPHONE COMPANY REQUEST FOR TWO ADDITIONAL YEARS TO MEET TRIBAL LANDS BIDDING CREDIT CONSTRUCTION REQUIREMENT

WT Docket No. 06-231

Comments due: January 10, 2008.

Reply Comments due: January 17, 2008.

Pursuant to Section 1.925(c) of the Commission's rules,¹ the Wireless Telecommunications Bureau (Bureau) hereby seeks comment on the Request of Ronan Telephone Company (Ronan) for two additional years to meet the tribal lands bidding credit (TLBC) construction requirement for the Blackfeet Indian Reservation located in Montana (Request).²

On January 29, 2004, the Commission granted Ronan the Lower 700 MHz Band C Block license for Montana RSA 1 (CMA 523), Call Sign WPZK450.³ Ronan received an \$182,000 TLBC, fifty percent of its gross bid in Auction No. 44, in exchange for its agreement to construct and operate "a system capable of serving seventy-five (75) percent of the population of the qualifying tribal land [*i.e.*, the Blackfeet Indian Reservation] for which the credit was awarded." Ronan was required to file a certification within fifteen days of the third anniversary of the initial license grant, January 29, 2007, indicating that it had satisfied its TLBC construction requirement.⁴ On November 29, 2006, Ronan filed a request for an additional three years to meet the requirement.

On January, 26, 2007, the Mobility Division of the Wireless Telecommunications Bureau granted a one year extension of Ronan's TLBC construction requirement, extending the deadline for Call Sign WPZK450 until January 29, 2008.⁵ The Division found that a one year extension would further the

³ The license area encompasses northwestern portions of Montana, including the counties of Lincoln, Sanders, Lake, Flathead, Glacier, Pondera, and Teton. The Blackfeet Indian Reservation lies within Glacier and Pondera Counties.

public interest by ensuring prompt delivery of advanced telecommunications capability to the residents located on the rural Blackfeet Reservation.

On November 16, 2007, Ronan filed a request for a two year extension of its current TLBC construction deadline of January 29, 2008.⁶ Ronan argues that a further extension is warranted due to the extreme variability of population density on the reservation, the remote location of many of the reservation's homes, technical obstacles such as the presence of a UHF TV translator on channel 54 east of the reservation, and the financial challenges associated with Ronan's business plan. We seek comment on Ronan's request.
